REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Gilmanton School Board:

I herewith submit my fourth annual report as superintendent of schools.

TEACHING FORCE.

Again last year as the year before the school work during the year was unbroken by changes in the teaching force. At the end of the year, however, the loss was heavy, but not so great as usual, only three vacancies existing: Kelley's Corner, Iron Works, and Jones' Mills. As the two schools at the Corner were combined this year, the number of teachers was reduced by one. The following table indicates the schools now open, the teachers, salaries, and enrollments.

School	Teacher	Salary	Enrollment
Kelley's Corner	Frances W. Goodhue	\$850	17
Corner (Grades I-X)	Margaret C. Norton	1,000	19
Iron Works	Jessie K. Thompson	950	28
Sanborn	Florence M. Durgin	800	8
Smith Meeting House	Lillian G. Buzzell	650	9
Jones' Mills	Roxey E. Carroll	800	12
		<hr/>	<hr/>
		\$5,050	93

Miss Goodhue is a graduate of the Keene Normal School, three-year course. Miss Thompson, who replaced

Miss Marie Lupien after the first month, is a graduate of the Truro Normal School in Nova Scotia and has had several years highly successful experience. Mrs. Carroll has taught successfully for a number of years and is now working for a state certificate by attending summer schools.

TEACHERS' MEETINGS.

Three teachers' meetings were held during the fall term of this year. The daily time table, pupils' marks, and methods of instruction in seventh and eighth grade geography were the chief topics discussed.

The State Board of Education held an institute for rural teachers at the Iron Works on September 30. It was attended by all the Gilmanton teachers and they found it exceedingly helpful. Teachers' meetings and institutes are highly important means of improving the quality of instruction in the schools and it is regrettable that more cannot be held.

ATTENDANCE.

The attendance for last year was better than ever before. The per cents of attendance for the past five years have been as follows: 89.4% ; 89.9% ; 90.04% ; 91.89%, and 93.24%, respectively. The numbers of tardinesses per pupil for the same period have been 3.5, 2.7, 3.4, 3.9, and 2.6, respectively, a decided improvement.

HEALTH SUPERVISION.

During the year three school nurses were engaged to do health work in the Gilmanton schools, but for reasons best known to herself each nurse notified the superintendent that she could not do the work as she had agreed. Efforts have been continued this year and at the time of writing this report an agreement exists with Miss Katherine A. O'Donnell to begin work in the spring. Miss O'Donnell has been doing excellent work for the past

year in the Pembroke supervisory union. The following report of the medical examiners shows the need of her services.

REPORT OF MEDICAL EXAMINERS

Examiners: N. W. MacMurphy, F. B. Argue, and R. W. Tuttle.

Approximate date of examinations: Dr. MacMurphy, Oct. and Nov., 1925; Dr. Argue, Dec., 1925; Dr. Tuttle, June, 1926.

Number examined: Pupils, 73; Teachers, 6.

Laconia: Irad Marsh.
Pittsfield: Una Geddes.

GENERAL REMARKS

I believe the progress of the Gilmanton schools is excellent; the teachers are working conscientiously and intelligently for the good of the boys and girls; modern methods of instruction are being used, and modern text books have been adopted. The health of the pupils has been considered in the furnishing of sanitary water coolers, paper drinking cups and paper towels, in the improvement of toilets, of seating, lighting, heating, and ventilating conditions, and in the adopting of the policy of employing a school nurse. Money used for such purposes is not spent but invested, and an investment in children's education and health is the best investment that a community can make. The future administration of the Gilmanton schools should provide for the continued improvement of buildings and equipment and for the maintenance of the present policy of employing only well trained and capable teachers.

CENSUS.

Number of resident children 5 to 16 in local schools
Sept. 30, 1926, 91.

Number 5 to 16 in high school outside the district, 2.

Number in elementary schools outside the district, 1.

Total number of children 5 to 16 in some school, 94.

Number 5 to 8 not in school, 9.

Number 8 to 14 not in school, 0.

Number 14 to 16 not in school, 5.

Total number of resident children 5 to 16, 108.

It may be seen by a comparison of these figures with those given in my last report that the total number of

children in Gilmanton last fall was slightly greater than it has been for the last three previous years.

BUILDINGS.

During the past year several improvements have been made in the schoolrooms. In the large room in the academy now being used the walls and ceiling have been painted and new shades have been put up. At Jones' Mills the lighting has been somewhat improved by the removal of the window in the front of the room and new blackboards have been installed. When the repairs already planned are made, this will be a much more attractive building. When it became necessary last fall to open the Sanborn school, because of the change in pupil population, it was found that considerable repairing had to be done there. The walls and ceiling were painted, much glass had to be set, and the toilets had to be rebuilt. I hope that sufficient funds will be available next year to make the repairs at the Iron Works school that are so badly needed.

IN CONCLUSION.

The people of Gilmanton should be congratulated for having a school board that gives so unstintingly of its time and energies in working for the best interests of the boys and girls of Gilmanton and the future of the community and state. It is with a sincere appreciation of the willing cooperation you have given me that this report is made for your consideration.

Respectfully submitted,
L. B. BADGER,
*Superintendent of Schools,
Supervisory Union No. 49.*
